#### **Meeting Today's Most Demanding Conditions**

The PowerEdge 24PE 160 Amp alternator is engineered to survive and thrive the harsh underhood environment of heavy-duty Class 8 trucks with their extreme underhood temperatures. That's why it's the ideal choice for today's commercial vehicles.

#### **SUPERIOR COOLING PERFORMANCE**

Dual internal fans provide higher air flow within the alternator, quickly dissipating heat for lower operating temperatures

#### **TESTED UNDER EXTREME CONDITIONS**

Internal components are tested for severe thermal heat fatigue to ensure our PowerEdge alternators are superior to the competition.
