**Truck-Lite**

**TL 80990**

**HEATED LENS, UNIVERSAL, LED, 7 IN. ROUND, SNOW PLOW LIGHT**

**\$824.00**

World's first heated lens LED headlight heats constantly under 10 C/50 F. Provides a robust, LED, solid-state solution to plowing applications in need of durable lighting that can withstand shock and vibration, replacing headlights and turn signal lights blocked by the plow assembly. Utilizes Truck-Lite's 27275C 7 in round heated LED headlight. Heated lens prevents snow, ice, and slush build-up. Popular for utility/municipality use and more, as LED design draws less current, allowing more power for other vehicle requirements. DOT compliant LED headlight provides a brighter, crisper and whiter light output, closer to the color temperature of daylight, dramatically improving light projection distance and increasing visibility. Impact resistant polycarbonate lenses protects against damage caused by debris and other hazards.

**TL 80985**

**UNIVERSAL, LED, 5 X 7 IN. RECTANGULAR, SNOW PLOW LIGHT, 23 DIODE, POLYCARBONATE.**

**\$650.00**
