REAR-VU™ Backup Camera

PC 78-1200 Wireless Connection Rear View Backup Camera

\$385.00

REAR-VU™ Backup Camera

The ultimate solution for improving safety and operational efficiency.

Phillips Industries **REAR-VU™** Backup Camera is an innovative solution designed to be universally accessible, provide a reliable connection and superior visibility, improve driver and pedestrian safety, and protect valuable assets.

STRONG WIRELESS CONNECTION

- Stable WiFi connection up to 70 feet (from the cab to the camera).
- Real-time visibility – Ultra-low latency (.25 sec)

CONNECT TO ANY TRAILER

- Operators can seamlessly connect to ANY trailer with REAR-VU installed, regardless of ownership.
- Ideal for various leasing & ownership scenarios.

SUPERIOR VISIBILITY

- Expansive 170° view behind trailer.
- Clear visibility of rear bumpers, doors, and over 50 feet behind the trailer.

SAFETY & ASSET PROTECTION

- Increases situational awareness and driver confidence.
- Enhances yard safety, reduces collisions and asset damage.
- Improves overall driver and pedestrian safety

SETUP MADE SIMPLE

- Easy installation process.
- Free, user-friendly app available on iOS and Android.

QWIK-CHANGE™

PAK

POWER AIR KIT

Anodized Gladhands with Large Rubber Grip

- Factory-installed gladhands are anodized for added strength and corrosion resistance
- Large rubber grips allow for easy coupling and uncoupling and act as cable strain relief to protect against kinking/tearing

QWIK-CLAMP™

- Corrosion-resistant and allows for quick cable adjustments in seconds without the use of tools
- Securely locks in place without damaging hoses, cables, or combo assemblies
- Latch is designed and tested to prevent accidental or unexpected release, which can cause damage to lines and other tractor components

QCP™ (Quick-Change Plug) with Cable Guard

- Quick-change plug can be serviced in under 2 minutes
- Replaceable plug insert eliminates re-wiring, reducing downtime and replacement costs
- Completely molded plug and weather-proof housing protects against corrosion
- Cable guard added to trailer side for stress relief and cable support

25" Extra Heavy-Duty Springs

- Designed to properly support the weight of air and electrical lines
- Extra length provides more stretch to prevent springs from being overstretched in extreme jackknife situations

PC 30-217429 Quik Change PAK Power Air Kit 15' \$359.95

Prices listed are based on current manufacturers' pricing and may be withdrawn at any time before the stated expiration date of the promotion.
